

Privacy Film, Sandblasted Design, Colored Matte

Art. No. 213085, ...90, ...95, ...100 - interior and exterior installation

Technical Data

Material	PVC film, translucent
Film thickness	80 µm (+/- 5%)
Adhesive	Solvent acrylic structured adhesive, permanent, transparent
Adhesion strength	7,5 N/25mm
Release liner	PE-coated silicone paper, 135 g/m ²
Application temp.	min. +10°C (shrinkage < 0,3 mm)
Temp. resistance	-40 to +90°C
Printable with	Solvent, eco-solvent, latex, and UV-curable inks

The manufacturer grants a warranty of 2.5 years on color fastness for these translucent decorative glass films when applied vertically outdoors. The films themselves are much more durable, and in indoor applications, the service life is considerably longer.

The privacy film in elegant satinato design provides subtle privacy while giving your windows a refined look. With its high light transmission, it is ideal for residential use, protecting privacy while creating bright interiors.

Thanks to metallic pigmentation, the film achieves its unique, sophisticated effect. The fine surface texture and reduced surface gloss prevent unwanted reflections.
